

CITY

I CAN MAKE YOU SMILE

eco  car
electric vehicles

CITY

ecocar city because it is...

Economical

Minimum consumption of around 1,5€/100km

Zero Taxes

Low maintenance cost

Low Insurance cost

Smart

It has the latest technology

It has modern equipment with multiple connectivity options

New generation batteries with many autonomy options

Eco-friendly

It does not pollute the environment at all as it has zero emissions

It is completely silent

It significantly reduces the wear and tear of the road surface due to its low weight

Practical

Suitable for driving in an urban environment

It is flexible and easy to drive

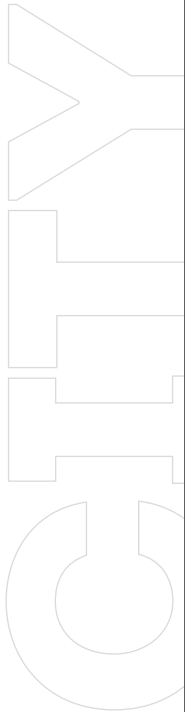

Park easily and "everywhere"

Charges in a simple household socket

Extra Tip!

Receives all the privileges of the state program "Move Electric 2", most importantly the 40% subsidy on the basic price before taxes up to €3000, additional incentives for the retirement of an old vehicle, those with many children, disabled people, young people under the age of 29 and special tax incentives for professionals

1,5€/100km

when consumption is almost 1.5€ per 100km
you have many reasons to smile...

0€ taxes

with zero taxes
you laugh and make others worry ...

0% pollutants

you can smile, what you are doing is important
for our children's future and yours

CITY

choose wisely
