

VAN PICK UP

I CAN MAKE YOU SMILE

VAN PICK UP

ecocar because it is...

Economical

Minimum consumption of around 1,5€/100km
Low operating costs
Low maintenance cost
Low Insurance cost

Smart

It has the latest technology
It has modern equipment with multiple connectivity options
New generation batteries with many autonomy options

Eco-friendly

It does not pollute the environment at all as it has zero emissions
It is completely silent
It significantly reduces the wear and tear of the road surface due to its low weight

Practical

Suitable for driving in an urban environment
It is flexible and easy to drive
Park easily and "everywhere"
Charges in a simple household socket

Extra Tip!

Receives all the privileges of the state program "Move Electric 2",
most importantly the 40% subsidy on the basic price before taxes up to €3000

≈1,5€/100km

when consumption is almost 1.5€ per 100km
you have many reasons to smile...

Low operating costs

0% pollutants

you can smile, what you are doing is important
for our children's future and yours
